

# Operation Identification

Program information and engraver sign-out form.

Operation Identification encourages community members to mark or identify valuables as a proactive measure against theft. Stolen articles that are marked are easily traced and difficult to sell.

The Keene Police Officers Association will lend you an electric engraver — **free of charge** — to mark your business possessions using a unique identifier, such as your favorite number, business name, or the last 4 digits of your driver's license number. The borrowing period is generally two (2) days.

In addition, we encourage everyone to photograph or videotape the contents of your business that can't be engraved.

Window stickers for your business are also provided to alert people that you have taken proactive measures to deter theft or burglary by participating in the Operation Identification Program.

Protect your property — become a participant in Operation Identification.
